Dear @Apple, I just bought iPhone 12 Mini for my younger brother, he setup his own face id but how the hell his iPhone unlocked by my face 😂??

I paid ₹ 50,000 for this security, I want refund 🙄.

MacBook Pro update. Wow, @Apple really blew me away with this replacement machine. I was not expecting anything like this to replace my old 2015 MBP that had a botched battery repair. I was hoping for a dusty refurb. Looks like I'm gonna stay a loyal customer. :)

Stuff like this and proper stores you can visit keeps me a apple user. Even when I was a Microsoft consultant.

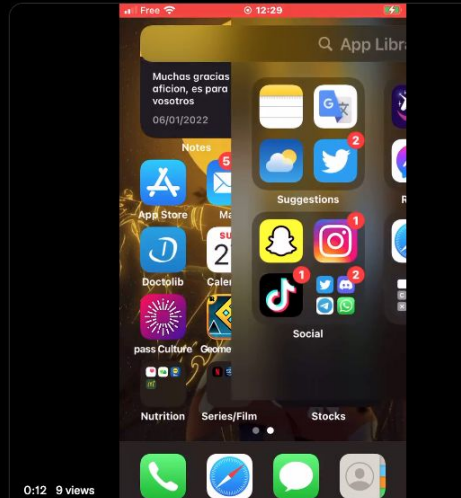

**Greg's Maker Corner** @greghuber · 19h  
Yeah.. absolutely. I wasn't sure how this one was gonna turn out. They really went above and beyond in the end. I don't know what other tech companies would end up replacing a 6 year old machine with a new one.

We know it's important for your device to charge correctly. We're happy to help. When you disconnect your charger, does the battery percentage decrease? Also, what specific device are you using?

# Objectives

What do we want to accomplish?

Business objective:

How can Apple use social media to further lower customer attrition?

Data science objective:

Can we accurately predict negative and non-negative tweets?

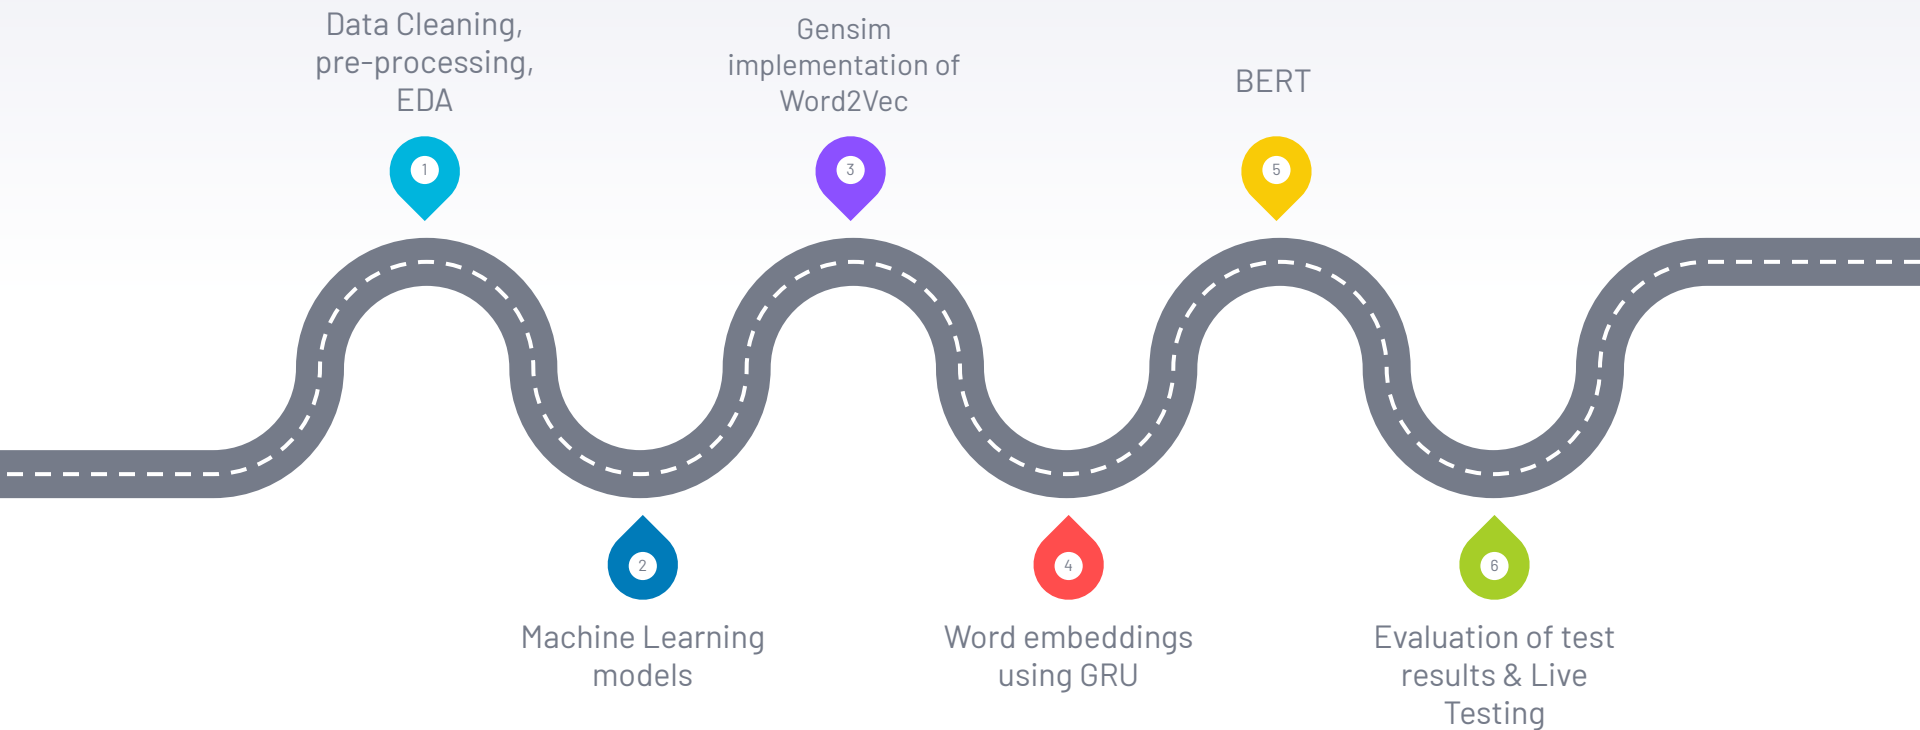

# Data Overview

Feature	Data type	Dataset	Description
sentiment	bool	train/test	Sentiment of tweet: 0 for Non-negative tweets; 1 for Negative tweets
date	obj	train	Date & time of tweet
text	obj	train/test	Tweet posted
